

新湊川水系 洪水浸水想定区域図（計画規模）【2/2】

位置図

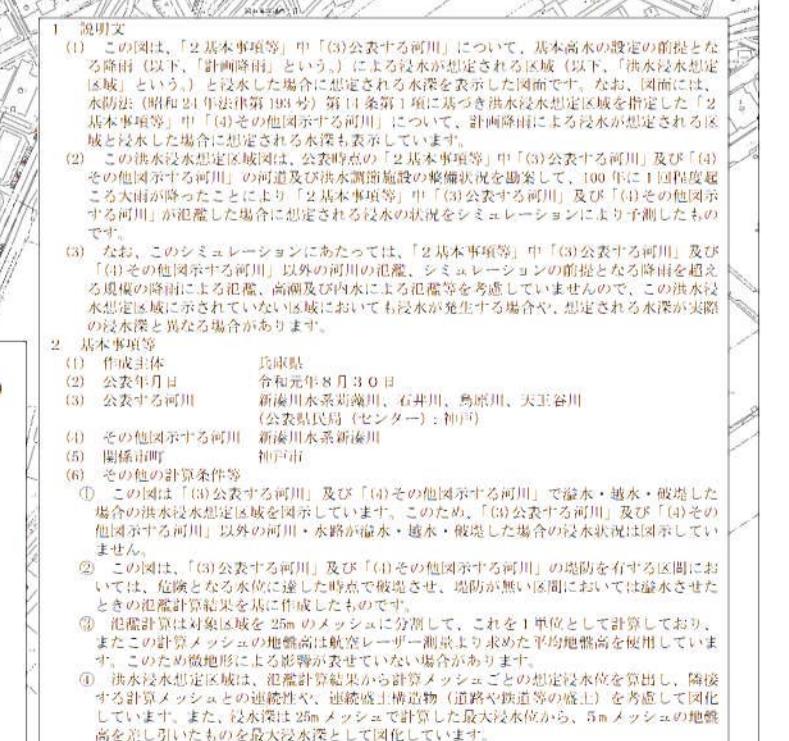

神戸市北区

This figure is a topographic map of the Sanxingdui site area. It features contour lines representing elevation changes across the landscape. Superimposed on the terrain are several key elements: a large, irregular blue line outlines the perimeter of the Sanxingdui archaeological complex; a dashed black line traces the path of the Shuangqiao River; and a solid black line indicates the course of the Jinsha River. The map also includes a grid system and various labels in Chinese characters, such as '三星堆' (Sanxingdui) near the center, '金沙江' (Jinsha River) along the bottom right, and '都江堰' (Dujiangyan) in the upper right. The overall image provides a detailed view of the site's geographical context and its relationship to major waterways.
